

Accordingly, the Exchange is proposing to amend its Guidelines to permit specialists' trading assistants to act in this capacity, provided that prior Floor official approval is obtained.

Exchange Rule 35

Exchange Rule 35.20 provides that "Floor employees of members and member organizations are not allowed to be upon or to cross the trading area of the Floor for any purpose during the period between ten minutes preceding the opening of the market and five minutes following the close of the market." In order to conform the above rule to the Guidelines, the Exchange is proposing to amend this paragraph by cross-referencing the proposed amendment to the Guidelines.

(2) Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6(b) of the Act⁶ in general and furthers the objectives of section 6(b)(5) of the Act⁷ in particular in that it is designed to facilitate transactions in securities and remove impediments to and perfect the mechanism of a free and open market. The Exchange believes the revisions to the Guidelines support these goals by promoting the efficient, uninterrupted conduct of business on the Trading Floor.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A)(i) of the Act⁸ and subparagraph (f)(1) of Rule 19b-4⁹ thereunder because the proposed rule change is a "stated policy, practice or interpretation" concerned with the administration of Exchange Rule 35. At any time within 60 days of the filing of such proposed rule change, the

Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NYSE. All submissions should refer to File No. SR-NYSE-2001-41 and should be submitted by November 23, 2001.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.¹⁰

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Determinations Under the African Growth and Opportunity Act

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: The United States Trade Representative has determined that Uganda has adopted an effective visa system and related procedures to prevent unlawful transshipment and the use of counterfeit documents in connection with shipments of textile and apparel articles and has implemented and follows, or is making substantial progress toward

implementing and following, the customs procedures required by the African Growth and Opportunity Act. Therefore, imports of eligible products from Uganda qualify for the textile and apparel benefits provided under the AGOA.

EFFECTIVE DATE: October 23, 2001.

FOR FURTHER INFORMATION CONTACT:

Leslie S. Yang, Director for African Affairs, Office of the United States Trade Representative, (202) 395-9612.

SUPPLEMENTARY INFORMATION: The

African Growth and Opportunity Act (Title I of the Trade and Development Act of 2000, Pub. L. 106-200) (AGOA) provides preferential tariff treatment for imports of certain textile and apparel products of beneficiary sub-Saharan African countries. The textile and apparel trade benefits under the AGOA are available to imports of eligible products from countries that the President designates as "beneficiary sub-Saharan African countries," provided that these countries (1) have adopted an effective visa system and related procedures to prevent unlawful transshipment and the use of counterfeit documents, and (2) have implemented and follow, or are making substantial progress toward implementing and following, certain customs procedures that assist the Customs Service in verifying the origin of the products.

In Proclamation 7350 (Oct. 2, 2000), the President designated Uganda as a "beneficiary sub-Saharan African country." Proclamation 7350 delegated to the United States Trade Representative (USTR) the authority to determine whether designated countries have met the two requirements described above. The President directed the USTR to announce any such determinations in the **Federal Register** and to implement them through modifications of the Harmonized Tariff Schedule of the United States (HTS). Based on actions that Uganda has taken, I have determined that Uganda has satisfied these two requirements.

Accordingly, pursuant to the authority vested in the USTR by Proclamation 7350, U.S. note 7(a) to subchapter II of chapter 98 of the HTS and U.S. note 1 to subchapter XIX of chapter 98 of the HTS are each modified by inserting "Uganda" in alphabetical sequence in the list of countries. The foregoing modifications to the HTS are effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after the effective date of this notice. Importers claiming preferential tariff treatment under the AGOA for entries of textile and apparel articles should ensure that those entries

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-99-5867]

Parts and Accessories Necessary for Safe Operation; Renewal of Fuel Tank Exemptions for Vehicles Manufactured by the Ford Motor Company

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of intent to renew exemptions; request for comments.

SUMMARY: The FMCSA is announcing its intent to renew exemptions granted in response to applications from the Ford Motor Company (Ford), from certain fuel tank design and certification labeling requirements in the Federal Motor Carrier Safety Regulations (FMCSRs). Renewal of the exemptions would enable motor carriers to continue operating commercial motor vehicles (CMVs) manufactured by Ford, and equipped with fuel tanks that do not meet the FMCSA's requirements that fuel tanks be capable of receiving fuel at a rate of at least 20 gallons per minute, and be labeled or marked by the manufacturer to certify compliance with the design criteria. The FMCSA believes the terms and conditions of the exemptions have ensured a level of safety that is equivalent to the level of safety that would be achieved by complying with the regulations, and that renewing the exemptions would not adversely affect highway safety. The exemptions, if renewed, would continue to preempt inconsistent State and local requirements applicable to interstate commerce.

DATES: Comments must be received on or before December 3, 2001.

SUPPLEMENTARY INFORMATION:

Electronic Access

You can mail or deliver comments to the U.S. Department of Transportation, Dockets Management Facility, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590-0001. You can also submit comments electronically at <http://dms.dot.gov>. Please include the

docket number that appears in the heading of this document. You can examine and copy this document and all comments received at the same Internet address or at the Dockets Management Facility from 9 a.m. to 5 p.m., e.t., Monday through Friday, except Federal holidays. If you want to know that we received your comments, please include a self-addressed, stamped postcard or include a copy of the acknowledgement page that appears after you submit comments electronically.

FOR FURTHER INFORMATION CONTACT: Ms. Deborah M. Freund, Office of Bus and Truck Standards and Operations, (202) 366-4009, Federal Motor Carrier Safety Administration, 400 Seventh Street, SW., Washington, DC 20590-0001. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

Background

Ford's Applications for Exemptions

Ford applied for exemptions from 49 CFR 393.67(c)(7)(ii), which requires that certain fuel tank systems on CMVs be designed to permit a fill rate of at least 20 gallons (75.7 liters) per minute, and 49 CFR 393.67(f)(2) and (f)(3), which require that liquid fuel tanks be marked with the manufacturer's name and a certification that the tank conforms to all applicable rules in § 393.67.

On August 10, 1999 (64 FR 43417), the FHWA published a notice of intent to grant Ford's applications. The FHWA requested public comment on Ford's applications and the agency's safety analysis, and presented other relevant information known to the agency. After considering all the comments received, the agency granted the exemptions on December 20, 1999 (64 FR 71184). In that notice, the agency noted that the 20 gallon per minute rate referenced in the FMCSA's regulations, while appropriate for diesel fuel-powered vehicles, also mandates that fill pipes on gasoline-powered vehicles be capable of receiving fuel at the same rate, which is twice the maximum rate gasoline pumps are designed to dispense fuel. The vehicles in question are gasoline-fueled and are capable of receiving fuel at a rate of 17 gallons per minute.

The exemptions covered § 393.67(c)(7)(ii), Construction of liquid fuel tanks; fill pipe, and §§ 393.67(f)(2) and (f)(3)(ii) which require that liquid fuel tanks be marked with the manufacturer's name, and a certification that the tank conforms to all applicable rules in § 393.67.

Reason for Renewing the Exemptions

The FMCSA intends to renew the exemptions because the commercial motor vehicles covered by the exemptions are still in operation, and the agency is not aware of any information, anecdotal or otherwise, that would suggest that the level of safety for the exempted vehicles is not equivalent to the level of safety that would have been achieved if the vehicles complied with §§ 393.67(c)(7)(ii), 393.67(f)(2), and 393.67(f)(3)(ii). No interested parties have contacted the FMCSA or submitted comments to the docket since December 20, 1999, the date the exemption was granted, indicating that any aspects of the exemptions have had an adverse effect on highway safety. Accordingly, the agency is proposing to renew the exemptions for another two-year period.

Terms and Conditions for the Exemption Renewal

The FMCSA would continue to provide exemptions to §§ 393.67(c)(7)(ii), 393.67(f)(2), and 393.67(f)(3)(ii) for motor carriers operating Ford Econoline-based vehicles. The exemption renewal would be effective upon publication in the **Federal Register** pursuant to 5 U.S.C. 553(d)(1) and would be valid for two years from the date of approval, unless revoked earlier by the FMCSA. Ford, or any of the affected motor carriers, may apply to the FMCSA for another renewal of the exemption. The exemption would continue to preempt inconsistent State or local requirements applicable to interstate commerce.

As with the original exemption, the motor carriers operating these vehicles would not be required to maintain documentation concerning the exemption because the vehicles and fuel tanks have markings that would enable enforcement officials to identify them. The vehicles covered by the exemptions can be identified by their vehicle identification numbers (VINs). The VINs contain E30, E37, E39, E40, or E47 codes in the fifth, sixth, and seventh positions. The fuel tanks are marked with Ford part numbers F3UA-9002-G*, F3UA-9002-H*, F4UA-9002-V*, F4UA-9002-X*, F5UA-9002-V*, F5UA-9002-X*, F6UA-9002-Y*, F6UA-9002-Z*, F7UA-9002-C*, and F7UA-9002D* where the asterisk (*) represents a "wild card" character (any character of the alphabet).

Request for Comments

In accordance with 49 U.S.C. 31315 and 31136(e), the FMCSA is requesting public comment from all interested
