Subject: Bahrain Commercial Availability Request To Modify Rules Of Origin

To Whom It May Concern,

Please be advised that Inman Mills is a greige goods producer located in Spartanburg County South Carolina that has been in continual operation since 1902. Inman Mills can produce many of the fabrics on the Bahrain short supply request. We produce to order and have three manufacturing plants which employ approximately 700 people. Further information on our broad capabilities is available upon request.

Specifically, we are capable of supplying the following fabrics =

Item #'s 1, 2, 3, 4, 5, 9, 10, 11, 12, 13, 14, 15, 17, 18, 19, 20, 21, 23, 24, 25, 30, 31, 32

With respect to any required finishing of said fabrics, Inman Mills works with a wide array of finishers who can dye and/or print these fabrics. Full construction details of each would need to be provided so we can best align the proper supply chain partners.

It is for these reasons that Inman Mills strongly feels the request for short supply on these items should be denied as they are commercially available.

Thank you for the opportunity to comment.

Sincerely,
