Standards and Regulations

The Ministry of Industry and Trade (MOIT) [Circular No. 21/2017/TT-BCT](#) sets limits on the content of formaldehyde and certain azo dyes in textile products. Under this regulation, formaldehyde and azo dye content in textile products that are manufactured, imported, distributed or sold in the Vietnam market will be limited as follows:

Limits on content of formaldehyde:

- textile products for children under 3 years old: 30 mg/kg
- textile products in direct skin contact: 75 mg/kg
- textile products without direct skin contact: 300 mg/kg

Limits on content of aromatic amines derived from azo colorants:

- aromatic amine shall not exceed 30 mg/kg

Effective January 1, 2019, all textile products must comply with the National Technical Regulation regarding the contents of formaldehyde and aromatic amines derived from azo colorants. At the point of sale, products must have a regulation conformity (CR) mark indicating conformance either by self-declaration or by the appointed certifying organization.

Labeling

[Decree 89/2006/ND-CP](#) and accompanying regulations provide the requirements for the labeling of goods for sale in Vietnam.

According to these regulations, product labels must include the following information:

- Name of goods
- Name and address of the organization or individual responsible for the goods
- Origin of goods

In addition, textile, garment, leather and footwear products must also include the following information:

- Composition or quantitative compositions
- Technical specifications
- Hygiene, safety information and warnings
- Instructions on use and preservation

Labels of domestically circulated goods must be in Vietnamese.
